SONNET 2

Audio Processor

SONNET 2

SONNET 2 is the latest audio processor from MED-EL. Featuring advanced hearing technology, it is designed to give optimal sound quality. But not only that, SONNET 2 can also be customised to suit the personal needs of each individual user. From flexible battery options, to universal connectivity accessories, SONNET 2 is made for you.

SONNET 2 EAS

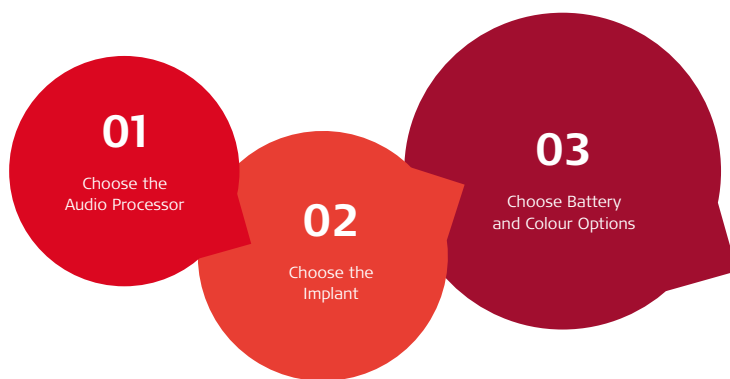

SONNET 2 EAS contains Electric Acoustic Stimulation technology to assist users with high-frequency hearing loss. It combines electrical CI stimulation with acoustic amplification, to take advantage of a user's natural residual hearing. SONNET 2 EAS offers all the same great features as SONNET 2, plus an additional acoustic unit and earpiece.

SONNET 2 User Kit

The SONNET 2 User Kit is the must-have product for all new users. From a fully-assembled audio processor, to waterproof covers and other accessories, it provides everything needed to get started with SONNET 2. What's more it all comes in a stylish backpack, which can be used either to store SONNET 2, or just for everyday use.

How To Choose A User Kit

In addition to the fully-assembled audio processor, all user kits contain the following accessories:

- WaterWear: see page 27
- FineTuner Echo Kit: see page 14
- Daily Case Kit: see page 15
- Drying Kit: see page 16
- MED-EL backpack: see page 16
- Important documents and user manuals

Depending on which battery option is selected, the user kit will also contain the following items:

Rechargeable Batteries:

- 2 Rechargeable Batteries Standard
- 1 Rechargeable Battery Micro
- Rechargeable Battery Adapter
- Charging System
- Battery Wallet

Disposable Batteries:

- Battery Pack Frame
- Pack of Size 675 Zinc-Air Batteries

Both Types of Batteries:

- All of the above

A Spare Parts Kit should also be ordered alongside the user kit.

The Spare Parts Kits contain audio processor parts in different colours, so your patients can customise their SONNET 2. Select the right Spare Parts Kit by using the diagram on page 4.

* The SYNCHRONY series of implants includes any MED-EL implant with SYNCHRONY in the name. Implants not in the SYNCHRONY series include CONCERTO and SONATA. For a full list of implants, please visit go.medel.com/faq-implants

Design Covers for DL-Coil

SONNET 2 is designed to blend in with your natural look. The Design Covers for DL-Coil allow the coil to be matched to specific hair tones, for those who like to keep their audio processor discreet. Alternatively, the art, animal, and pattern inspired covers enable recipients to make a statement with their SONNET 2.

SONNET 2 Battery Options

Choose from rechargeable batteries, disposable batteries, or both! SONNET 2's flexible battery options allow users to power their audio processor how it best suits them.

In order to use both type of batteries, users must have both the Rechargeable Battery Adapter (for rechargeable batteries) and the Battery Pack Frame (for disposable batteries).

Rechargeable Batteries

Rechargeable Battery Standard

Lithium-ion battery provides up to 10 hours of use per charge.

Pack with 1 Battery
 Pack with 2 Batteries
 Pack with 3 Batteries

31267
 33634
 33632

Rechargeable Battery Micro

Compact lithium-ion battery provides up to 7 hours of use per charge.

Provides a 50/50 mix of sound from the audio device and the SONNET 2 microphones, depending on settings. For use with two audio processors. 04440

Unilateral External Source

Provides a 90/10 mix of sound, with more sound from the audio device, depending on settings. For use with one audio processor. 04439

Bilateral External Source

Provides a 90/10 mix of sound, with more sound from the audio device, depending on settings. For use with two audio processors. 04441

Wearing Options

ActiveWear for SONNET 2

ActiveWear is the smallest audio processor wearing option available and is the ideal choice for younger children, or active adults. It allows the battery pack to be attached to clothing, leaving just the lightweight control unit behind the ear. With ActiveWear, children have a lighter way to wear SONNET 2 all day long, whereas adults have a more secure option during sports.

BabyWear for SONNET 2

BabyWear is a comfortable wearing option for babies and toddlers who aren't yet ready to wear a behind-the-ear processor. With BabyWear, SONNET 2 is worn completely off the ear and is instead attached to a baby's clothing. Alternatively, BabyWear can be used by children and adults when wearing a helmet, or in any other situation when the audio processor can't be worn on the ear.

SONNET 2 BabyWear Kit for DL-Coil
